## **Circular – Grade II**

**Dear Parents,Greetings from Muthamil Public School!**

The academic session 2022-2023 has begun in full swing and students are connected well with the teachers lively. Now with the summer temperature soaring high, children look forward to vacation time when they can relax and basically chill out enjoying those little pleasures of life which get left behind during the busy school routine.

We have brought an interesting holiday Home Works to keep your ward engage in holidays.

**Engage your Child in Reading:** Reading is one of the best summertime activities. Engage your kids in reading interesting stories and comics. Spending an hour every day helps to improve their reading skills, helps to gain knowledge, increase vocabulary, etc.Listening and speaking, reading and writing skills can be improved through reading books. So, in every aspect, reading is beneficial for students as it enriches their language on the go.

**Let your Child Explore the World outside:**Summer vacation can be made interesting by accompanying your kids on trips outside. Make them chances to explore the world. Fresh air, exercise, and observation are synonymous with child growth.Partaking them in study tours and picnics will help them to enhance general awareness .These trips can be made mesmerizing for your little ones by accompanying friends and families around.

**Engage your Kids in Arts & Crafts:** It improves their creative skills.Help them to make new things and develop creative and innovative skills. Indulging students in these activities help to enrich their hidden talents.

**Teach Them Gardening:** Gardening is beneficial for students.It helps children come closer to nature.They can plant different types of herbs, shrubs, trees, etc. It also helps improve locomotive skills in them as they have to move from one place to another and need to carry gardening types of equipment etc.Watering plants help them to know more about plant growth.

**Learn a New Skill:** Start learning a new skill that you always wished to learn. But do not rely on courses with a hefty fee to learn this course, instead use YouTube and other resources available using the internet. Here are some of the skills you could develop.

- Learn how to dance and sing
- Learn how to bake
- Play an instrument
- Learn a foreign language

**Communication** - Enhance your ward communication skills by conversing with them in English at least half an hour a day.

**Diet** –Motivate your ward to eat healthy food and drink lots of water & fresh juices.

**School will be reopened on 06.06.2022 (Monday)**  
**“Happy Summer Holidays”**
