**Ref.No.MPS/0023/2022-2023**

**Date: 23.07.2022**

## **Circular for VI to IX**

### **Rovers of Thamirabarani**

**Dear Parents, Greetings from Muthamil Public School!**

Nature the abode of trees, flowers and the birds and the realms of water is the space of life. To be in its presence and still know more about it is revelation. Our school & ATREE is providing a life time opportunity to explore the natural beauty of our Tamirabarani River which originates from the Western Ghats, travelling the river's path and finally meeting the sea at Pazhaya Kaayal in Tuticorin District. This activity includes theory classes on a bimonthly basis in our school on Saturdays and Sundays, a part of the eco club's activity time table and five field visits (once in two months) for a field observation about the living organisms like water plants and fishes in Thamirabarani. The survey would also include the observations of the agricultural activities happening along the way with water from Thamirabarani to various fields by canals and ponds. The Rovers team consists of only 24 students of 3 girls and 3 boys from each grade.

This programme will be launched on 29.07.2022 at M.S. University by our District Collector **Thiru. V. Vishnu I.A.S.**, followed by the 1<sup>st</sup> theory class at the same venue.

The expenditure towards this is around Rs.10000/ student- But our Management and ATREE will bear the Amount of Rs. 7000/ student. **So, the Fee fixed for a student is Rs. 3000/- Only**

**Principal**

-----**Willingness Form**-----

I \_\_\_\_\_ parent of \_\_\_\_\_  
Grade \_\_\_\_\_ is willing to pay Rs. 3000/- and allow my ward to participate in the Rovers of Thamirabarani programme.

**Signature of the Parent**
