Implanting footprints of kindness

Chain of activities of kindness is writing poetry in the little hearts of our children. This abstract emotion was more expressed with Grade I and II students sharing some time with students of Florence Swanson deaf and dumb students today. Our children witnessed the magic of learning with Braille letters. The school demonstrated a sample learning class with the children. Our children viewed the speech therapy lab which was intriguing. They also enjoyed their dance show. Our kids befriended them by writing their names on their palms. Finally were gifting the children with distributing stationary, toiletries and toys. This day is an added chapter in the novel on Charity @ Muthamil Public School.
