

SUBJECT EXPERTISE GRADE VI TO VIII

MPS SUMMIT NEWS LETTER

Presenting information precisely and effectively is a key skill that has to be developed in each and every child. In MPS to focus on the presentation skills of our students, each department conducted a subject presentation. TAMIL : Tamil Literature is vast and interesting, and the Tamil department students enacted on a historical king how he was fascinated and loved Tamil Language and always worked towards the betterment of Tamil.

ENGLISH: English is a language— originally

the language of the people of England. Today, it has become the most common and official language in many countries. English department presented a skit narrating the importance of time. The story was about how to

value time and how to help the person who is in need at that particular moment. Students also recited a poem and entertained the audience by conducting some tricky quizzes.

Science : Science is curiosity in thoughtful action about the world and how it behaves. "Science is the knowledge gained from using observations and experiments to describe and explain the world around us."

Our students proudly presented the Importance of blood groups, a ramp walk was done by students depicting various blood group types and their components. Students also enacted different reasons for heart disease. Students explained how heart disease can be prevented by having a healthy lifestyle. Students also spoke on the importance of eyes. They staged the difference between long and short sightedness. Laws of reflection was demonstrated to students using models.

Social: Social Science is the scientific study of human society and social relationships. Students presented a courtroom scene. Students enacted a small skit depicting on how illegal lands are being occupied but we have a court where all cases will be taken. The importance of the court and how our judiciary works.

Maths: The Maths department didn't leave any stones unturned, they presented how maths is being used in day-to-day life. A skit was enacted by students where students explained how Profit/Loss and the Application of Algebra are used in our day-to-day life. Students also learned how to find the Perimeter and Area. Students focused on how to find the number of tiles required for a particular floor.

COLOURFUL PICTURES THAT CAN BE CHERISHED CLASS PRESENTATION

When fall has given way to winter and snow covers the ground while lights twinkle from house to house, you know Christmas is coming. Decorated Christmas trees are everywhere you look. Christmas is all about celebrating the birth of Jesus Christ and remembering and following his teachings. Muthamil Public School celebrated Christmas in a grand way. The function started in

the evening. The sounds of bells made the environment fill with joy and peace. The celebrations included dance, music, and skit. Teachers added more colour to the function by staging Christmas carols. Students were all colorfully dressed, a few with red capes and a few were dressed like Santa. Parents were invited to witness this amazing celebration. The school was lit with alluring lights. This event was graced by the presence of Rev. V. Selin David, Rev R Starlin, and Mr I Dharma Durai. They gave an inspiring speech on how and why we celebrate Christmas. The presence of our Chairman sir added grace to the function.

WHAT, WHEN, WHY 5

Beware of mosquitoes

A five-year-old girl in Karnataka recently tested positive for Zika virus

Mosquitoes are notorious for their itchy bites, but what makes them a cause for concern is their ability to carry and spread deadly diseases to humans. Diseases spread by mosquitoes include Zika fever, chikungunya, Japanese encephalitis, dengue, and malaria. Recently, a five-year-old girl in Karnataka tested positive for Zika virus, a mosquito-borne disease.

1. The Zika virus is transmitted by the Aedes species of mosquito. It is transmitted by Aedes aegypti, which bites during the day and is generally found throughout the world.

2. Though the infection is not serious for most people, it can be dangerous for pregnant women. The infection during pregnancy can cause infants to be born with microcephaly, a condition where a baby's head is much smaller than expected restricting brain growth. Aedes mosquitoes can be distinguished by their narrow, black body, and alternating light and dark bands on the legs.

3. What we need to do is to be aware of the symptoms of Zika fever and keep ourselves safe. The symptoms of Zika virus are fever, rash, conjunctivitis, muscle and joint ache, and headache that last about a week.

4. Avoiding mosquito bites in places where the Zika virus has been reported is a way of preventing the disease. Stay fully covered in the mornings and sleep under a mosquito net during the night if your area is mosquito-prone. Aedes aegypti mosquitoes breed in clean water. So removing stagnant water helps. Keep your surroundings clean to prevent mosquitoes from breeding.

Did you know only the female mosquitoes bite us?

An Aedes aegypti mosquito, which transmits the Zika, chikungunya, dengue and yellow fever viruses, is photographed on human skin.

Quiz zone

Are you ready for a vocabulary test?

Can you guess what these people sell for a living?

1. Florist

- a. dental floss
- b. flour
- c. flowers

Answer: _____

2. Stationer

- a. paper goods
- b. railway goods
- c. electronic goods

Answer: _____

3. Stockbroker

- a. shoes
- b. livestock
- c. shares

Answer: _____

4. Chemist

- a. chemicals
- b. medicines
- c. computer equipment

Answer: _____

5. Confectioner

- a. confetti
- b. candles
- c. candies

Answer: _____

Answers: 1. c, 2. a, 3. c, 4. b, 5. c

How many are there?

Let's see if you knew it already. If not, here's a chance to find out.

1. Papers in one gross

2. Countries in South America

3. Time zones on the Earth

4. Keys in a modern piano

5. Moons of Jupiter

6. Rings of Saturn

7. States and Union Territories in India

8. Lines in a Sonnet

9. Oceans in the world

10. Cards in a pack of cards

Answers:
1. 144 papers 2. 13 countries 3. 24 4. 88 keys (52 white, 36 black)
5. 80 moons 6. 7 rings 7. 28 states and 8 union territories 8. 14 lines
9. 5 oceans 10. 52 cards

CBSE Pariksha pe charcha

Bharatiya Bhasha Utsav

CBSE Expression Series

Muthamil Public School with concurrence with CBSE conducted educational activities.

Under the 'Ek Bharat Shrestha Bharat' initiative, Bharatiya Bhasha Utsav was

celebrated. To strengthen language harmony, develop a conducive environment for learning more and more Indian Languages apart from mastering one's own mother tongue, and develop an attitude and aptitude to love and enjoy the neighboring language, many competitions as per the CBSE were organized and conducted. All the photos were uploaded to the website.

CBSE conducted Expression series and MPS students from grades III-XII participated. The theme was "My India in 2047".

Students could express themselves through essay writing /poems/ drawings. Students had different and innovative ideas and gave their best performance. Many students participated in the round one level. For round two, one best student's from each category was selected and uploaded in the CBSE website.
