**Making a difference together**

Our students enthusiastically explored the wonders of air and water, discovering their importance through engaging activities and hands-on experiments. They shared insights on water conservation, pollution prevention, and the water cycle while participating in exciting science experiments, such as demonstrating air's weight, understanding its role in burning, and observing floating in water. The celebration was filled with fun and learning as students enjoyed playing at the school waterfall and took part in a thrilling balloon-flying event. It was a memorable day that not only deepened their understanding of these essential elements but also inspired them to protect our planet

Our young readers took an inspiring step towards building a lifelong love for books! During their visit to the Nelai Porunai Book Fair, our students eagerly explored various book stalls, carefully selecting books that sparked their interest.

The most heartwarming moment? Many students used their own piggy bank savings to buy books, showing their true passion for reading!

At Muthamil Public School, we instill the habit of reading from a young age, encouraging curiosity, knowledge, and imagination. Events like these nurture independent learning and a deep appreciation for literature.

# Solar System Day

A Cosmic Learning Experience!

Our little Twinkle Stars at Muthamil Public School embarked on an exciting space adventure as they celebrated Solar System Day with fun-filled activities!

The day began with an interactive discussion about the eight planets and the dwarf planet Pluto, exploring their sizes, positions, and unique features. To make learning even more engaging, our young learners sang a planet song, helping them memorize the order of the planets effortlessly!

As a creative twist, the children molded planets using clay, carefully shaping and coloring

them to resemble their real-life appearance. Finally, they arranged and stuck their clay planets onto a black chart, bringing the Solar System to life!

This hands-on experience made learning fun, interactive, and truly out of this world!
