Educational Trip Experience!

Our students had an insightful educational trip to two important places—**Britannia Biscuit Company** and a **Solar Power Production Unit!**

Britannia Biscuit Company:

Students witnessed the entire biscuit-making process, from raw ingredients to packaging. They explored different varieties like Britannia, 50-50, Milk Bikis, Jim Jam, and Rusk. They also learned about hygiene and safety standards in the factory and observed how 1,000+ workers efficiently manage production.

Solar Power Production Unit:

Students discovered how solar energy is converted into electrical power and its role in India's electrical grid. Experts from Ace Solar Power Solution and Mohan Solar Power explained solar panel operations, energy conversion, and distribution.

CBSE CORNER

Our Students Participate in “Baalpan ki Kavita” Initiative We are proud to share that our students have enthusiastically participated in the “Baalpan ki Kavita” initiative launched by the Department of School Education and Literacy, Ministry of Education, in collaboration with MyGov. This initiative, aligned with the National Education Policy (NEP) 2020, emphasizes the importance of learning in one’s mother tongue or home language during the foundational years. It aims to restore and celebrate traditional and newly composed rhymes/poems in regional languages, Hindi, and English—fostering cultural connection and joyful learning among children. Our students contributed original and locally inspired rhymes on themes like nature, festivals, community helpers, and more. Their participation supports a play-based, engaging learning experience and strengthens the love for Bharatiya languages and values from an early age. We congratulate our young poets for being part of this national movement that nurtures both creativity and cultural roots!
